New Brunswick Community College (2013 - 2014)
Nouveau Brunswick, Canada
DEC Analysis and Programming

Certifications

- *Microfrontends with React – **Udemy***

- *Flutter & Dart to develop android and ios applications – **Udemy***

- *Front End Libraries – **Freecodecamp***

- *Javascript Algorithms and Data Structures – **Freecodecamp***

Hobbies

Read books and manga   Video games   Code

Design & Art   Sport

Open Source

IResto
IResto is a web application to order fast food. Everything is designed and developed from scratch.
https://github.com/Geekles007/irestau

Technologies & languages: Laravel, Inertia.js, React, Typescript, Node.js

CamerApps

Web application to find all communities, applications (mobile or web) developed in Africa

Lien: https://beingmusic.vercel.app/

Github: https://github.com/osscameroon/camerapps

Technologies & languages: React, Typescript, Node.js

Bozoo

Afro NFT's marketplace

Lien: https://bozoo.vercel.app/

Github: https://github.com/Geekles007/bozoo

Technologies & languages: Next.js, Typescript, Node.js, Web3

iBIRD Design Portofolio

My designer portofolio

Lien: https://ibird-design.vercel.app/

Github: https://github.com/Geekles007/ibird-group-website-frontend

Technologies & languages: React, Typescript, Node.js, Dribbble API, Affinity Designer

Zzolloo

A little fun project to search github, bitbucket and gitlab at the same time at the same time.

Lien: https://zzolloo.vercel.app/

Github: https://github.com/Geekles007/zzollo

Technologies & languages: React, Typescript, Node.js, Github API, Bitbucket API, Gitlab API

Wysiwygism

A wysiwyg editor.

Lien: https://wysiwygism.vercel.app/

Github: https://github.com/Geekles007/wysiwygism

Technologies & languages: React, Typescript, Node.js

Hooks Bible

A project to obtain pre-written reaction hooks ready to be used

Lien: https://hooks-bible.vercel.app/

Github: https://github.com/Geekles007/hooks-bible

Technologies & languages: React, Typescript, Node.js
